JOHN O'CONNELL BLAMES M'CARTY

Openly Charges Latter With Trying to Sell Out the Franklin Oil Company.

The Connorsville News of Tuesday says: John O'Connell came north from Franklin county this morning and went on to Muncie. O'Connell seemed to be pretty highly worked up about the shape matters are taking. He openly accuses one Jim McCarty, a school teacher, living near Buena Vista, with being the chief cause of the trouble, and says McCarty is trying to "sell out" the company. There was no time for Mr. O'Connell to explain the methods pursued by Mr. McCarty before the train left, but his words seem to introduce a new element into the situation. O'Connell threatens suit against McCarty and if he makes good on this promise, the whole story will likely come out.

Ad. V. Spivey, who is traveling through the State of Ohio for the A. Bush & Son's Implement Co., has been chosen to represent his company at the Michigan summer resorts. He will retain his territory in Ohio, however. Mr. Spivey was chosen from twenty-eight men who applied for the position. The selection of Mr. Spivey is a high compliment to his ability as a salesman and demonstrator. The Bush company has intimated that Mr. Spivey will be the man selected to represent them at the Lewis and Clark Exposition at Portland, Ore.

WELL RECEIVED

Secretary of War, Taft, is Warmly Welcomed by Home Folks at Columbus.

Columbus, Ohio, May 25.—Although the opening session of the Republican state convention was of a very routine character, consisting chiefly of the announcement of the committees and state committeemen, the fact that Secretary of War Taft, the temporary chairman, was to make his debut in his native state as a state convention orator, served to draw a large and very attentive audience. His appearance in the hall was the signal for applause, and when he was introduced as temporary presiding officer, the applause was long continued. During the reading of his speech hearty applause was given to the mention of President Roosevelt and to the president's actions or policy, while occasionally a turn of expression caught the fancy of the crowd and brought out cheers.

The chairman's plain statement of his opinion as to certain state questions concerning which there had been much adverse criticism was the occasion for some of the heartiest cheering of the day.

ELIJAH MATNEY PASSES AWAY

Death of One of the County's Pioneer Residents and Honorable Citizens

Elijah Matney, one of the county's pioneer residents and honorable citizens, died at eleven o'clock Wednesday night at his home in Noble township. Mr. Matney was stricken with paralysis some time ago and had been gradually declining. Mr. Matney was eighty-four years old. He was a man of enviable reputation for honesty, devoted in purpose and of close devotion to duty. He was born in Fayette county March 14th, 1822, and had resided in the house in which he died for about fifty years. He was a son of Elias and Elizabeth Matney, and was the father of eight children. Besides the wife, Mrs. Ada Matney, six children survive: Mrs. O. F. Guffin, William F. Matney, of Fayette county; Ocea W. Matney, of New Salem; John E. Matney, of Noble township and Mrs. M. C. Nair, of Orange.

The funeral services will be held at Little Flatrock Christian church Saturday morning at 10 o'clock, conducted by the pastor, Rev. F. B. Thomas. The burial will take place in the church cemetery.

CLASS FORMS ALUMNI ASS'N

The '04 Graduates of High School Will Meet Each Year—Will Banquet Soon.

The class which graduated from the Rushville high school in 1904, has formed an Alumni Association with the following named members, Misses Lucia Wilson, Grace Rainey, Helen Campbell, Nelle Bigham, Hazel Spurrier, Lillian Fleebart, Nora Moran, Tecco Holden and Grace Frazee, and Messrs. Lawrence Geraghty, Claude Simpson, Eugene Miller, Birney Spradling, Don Root, Roy Harrold, Cecil Clark and Clifford Lee. Other classes have thought of making a move of this kind, but this class has lived up to its reputation by being the first to put it into practice. It is the intention of the members to have an annual reunion and banquet, the first of which will be given some time within the next two weeks.

Cherries have appeared on the local market.

The new crank shaft and low speed motor has been installed at the I. & C. car shops and the machinery is now in operation.

BUSY TIMES FOR FARMERS

Taking Advantage of Good Weather to Get Their Corn Planted.

Weekly Bulletin Says That Not Half the Crop Has Been Planted Up to Date.

Rush county farmers are working from sun-up to darkness these days. Delay in corn planting resulting from the rainy weather of three weeks past has made it necessary to take advantage of every minute of the favorable weather. Rush county has fared no worse in this respect than other counties in the State and the weekly bulletin of crop conditions issued yesterday at Indianapolis says:

Probably less than one-half the corn crop has been planted, and a considerable acreage, in the aggregate, of that planted before and during the long spell with heavy rains having been washed out, drowned or covered with mud will have to be replanted.

Much corn ground has not yet been plowed and much of that which was prepared early in the season has become packed and so foul with weeds, and grass that it will have to be plowed again before being seeded. Notwithstanding these apparently discouraging features, however, it is well to remember that the season is yet young, and that the farmers have everything in readiness to rush work when the condition of the ground permits, and consequently, that fair weather during the coming week will make it possible to finish corn planting within the usual time limit.

Wheat on overflowed bottom land has probably suffered to some extent, and flies are reported in a few localities, but generally the prospects for a good crop, in proportion to acreage, were never better.

Rye, barley, where grown, oats, clover and timothy are all reported in excellent condition, except that in some fields clover and timothy are very weedy.

Onions on the marsh lands in the north section, that were inundated ten days ago, did not suffer as badly as was expected.

A large acreage of tomatoes has been set and the work continues.

Tobacco plants are being set out in the south section. In Randolph county the plants are suffering from insects.

Potatoes are doing well generally, but in some localities, on account of low temperature and excessive moisture, the seed failed to germinate.

Gardens are doing only fairly well, being weedy and needing cultivation.

The movement of the strawberry crop in the south section has begun.

Crops of all kinds of fruits, except possibly apples and grapes will probably be something below average, but fairly plentiful.

For the last thirty-five years Mr. and Mrs. Mallory lived near Lewisville, but it has only been during the last two years that they lived in that town.

The funeral will be held Friday at 10 o'clock from the home. Interment will be made at the Lewisville cemetery.

WAS IT MURDER?

The Testimony in the Case at Salt Lake Recalls Indiana Tragedy.

Salt Lake City, Utah, May 25.—The story of an old Indiana tragedy was retold here this week at an inquest over the body of George M. Hill of Harper, a young man who died in a lodging house from poisoning. While the police reported that the youth was addicted to the use of morphine and probably died of an overdose, Mrs. T. M. Harper, his aunt, testified that she believed Hill, who has been known as Harper, was murdered by persons interested in securing an estate valued at \$60,000 which Hill would have inherited when he became of age. Mrs. Harper testified that sixteen years ago at Winchester, Ind., when Hill was but six months of age, the boy's mother was shot and killed by his father who also severely wounded Mrs. Harper, the witness. The father, Mrs. Harper testified, was sentenced to life imprisonment but was paroled recently. An estate of \$60,000 left by young Hill's mother, the witness testified, would now revert to the father.

FORCE AT WORK ON WEST DIVISION

No Work on I. & C. Line East of Rushville, Till West End Is Done.

J. B. Pusey, of the firm of Pusey & Goshner, who have built several of the bridges for the I. & C., says that his force is still at work west of this city, and may have another bridge yet to build here for the line. The company is giving its whole attention to bringing the line between Rushville and Indianapolis up to the highest possible condition of perfection for fast and safe travel, and until that is done, no work will be done elsewhere.

Everything necessary will be done on the western division on or before July 1, and it is the understanding that then the work of pushing the line on east will be taken up and carried on vigorously by as large a force as can be mustered. There are doubts, however, whether the line will be able to run cars to Connorsville this year as there is much heavy grading to be done.

LEBANON 3 RUSHVILLE 2

Visitors Win a Hard Contest is This City Yesterday Afternoon.

Taylor Pitches Good Ball For Rushville—However, Timely Hits Win Game.

In one of the fastest and most exciting games played in this city for years the local club was defeated by the crack Lebanon team yesterday afternoon. The game was full of splendid plays and close decisions and while Umpire Carter's decisions at times were bad, it is believed that Eddie called them as he really saw them and that little blame rests upon him for the defeat.

The visitors won through their ability to hit timely. The game was a hard one to lose and should easily have gone to the credit of the local team. Several times Rushville had men on base, but was unable to connect with the sphere for the necessary hit.

Taylor and Shurr both pitched fine ball, but the latter had slightly the better of the argument, inasmuch as he was not quite so wild. Considering the fact that Taylor pitched the game Tuesday night which was the first game he has attempted to pitch this season, the public need not wonder at the score. Taylor proved yesterday that he can pitch.

The Rushville team left this morning for Lebanon, where it played a return game this afternoon with the Lebanon team. Wagner was on the rubber for the locals.

The features of yesterday's game were, Shaw's home run, Wagner's two and three base hits, Hendrix's fielding, Morgan's timely hit, which tied the score, and Shurr's timely hit which scored the winning run.

Lebanon was the first to score. Two runs were tabbed in the third inning when Behringer was struck by a pitched ball and was scored by Shaw, who drove a smashing home run towards the gate.

Rushville registered for the first time in the fifth, when Joe Herold beat out a bunt, stole second and scored on Hendrix's drive to left field. Another run was secured in the eighth, when Hendrix reached first on an error by Utter, was sacrificed to second by Bush, and scored on Morgan's timely two base drive to left field after two men were out and two strikes had been called upon him.

The winning run was scored by Lebanon in the ninth. Ellis was presented with a base on balls, took third on Shurr's timely hit to center field and scored on the throw in.

The locals tried hard to score in their half of the ninth, but were unable to get a man safely on base. Kiser went out, Behringer to Utter, Herold flew out to Ellis and the best Taylor could do was to ground the ball to Brown, who threw him out at first.

ADVERTISES INDIANA

The State is Becoming Famous for Its Growth of Fruit.

Warner W. Stevens, of Salem, president and W. B. Pick, of Lawrence, secretary of the State Horticultural Society, met at the State House Tuesday and discussed plans for spending the annual appropriation of \$3600 which the last legislature authorized for the advancement of the horticultural interests of the State.

"Indiana has prospects of becoming a great fruit growing State," said Mr. Stevens. "The climate is excellent and in many places the soil is as good as the best in California. We believe that these facts should be widely advertised in order to attract fruit growers to our State. Part of the annual appropriation will likely go to advertising."

The annual meeting of the State society will be held at the State Forestry Reservation, near Henryville, August 9th and 10th. The executive committee will meet at Orleans early in June to arrange a program.

The party who did the telephoning stated that Mr. Downey was unable to get to the phone, but assigned no reason. Efforts were made to learn the particulars of the accident, but to no avail.

THE SQUARE DEAL

Indianapolis Candidates Will Abide by Direct Primary.

Indianapolis, May 25.—Frank D. Stalnaker, Republican candidate for nomination for mayor, has set to rest all doubt as to where he stands as to the way the ticket shall be named. In an interview given to the public this morning he says he is for a direct primary. He declares the people want a primary and he is not afraid to risk his chances with them. There has been a suspicion during the last few days that some of the party leaders who are backing Stalnaker would try to have the nomination made by convention, believing that to be the easier way to defeat ex-Mayor Bookwalter, whose friends claim he can be nominated if there is a direct primary and he is given a square deal. The plan now is to give each candidate a representative on the election boards. If good men are appointed for the places then neither candidate will have much ground for legitimate complaint over the result. The primaries for the election of precinct committeemen will be held tomorrow afternoon and night.

Announcement of a change of management in the Indianapolis Sentinel is made by that paper. J. W. Allan of New York will henceforth be known as the publisher of the paper, and H. J. Haarmeyer of Cincinnati general manager. The Sentinel is owned by Thomas Taggart, chairman of the Democratic national committee, and has been the organ of the Democrats of Indiana for over half a century. The statement in the announcement that under the new management the paper will stand for the best interests of the city and state has aroused considerable speculation as to its political policy, but Mr. Taggart says that it will continue the organ of the Democracy. He will continue as president of the company, but the new men will have the entire management.

The state board of health is preparing to begin a crusade July 1 against impure and adulterated foods sold in Indiana. H. E. Barnhard, state chemist for New Hampshire, has been appointed chemist for the new laboratory of hygiene, which is to be installed at once. The legislature during the recent session made an appropriation for the laboratory and its maintenance. It will be established in the basement of the statehouse. Secretary Hurty of the health board is confident the laboratory will not only result in the sale of purer foods, but will result in a great saving to the people of the state. Barnhard comes recommended as one of the best chemists in the East.

James R. Henry of Gosport today announced his withdrawal from the race for the Republican nomination for auditor of state and his intention to support John C. Billheimer of Washington for the place. He expressed the opinion that Billheimer will be nominated.

Even Chance for Recovery.

Washington, May 25.—In answer to a cablegram from the insular bureau inquiring as to the condition of Colonel Wallace Taylor, the commander of the Philippine constabulary detachment in Leyte, who was wounded in a recent collision with brigands, the following has been received from Governor Wright: "Wallace Taylor in the hospital at Taalaban shot through the right jaw. Chances even for recovery. Considerable loss of blood, and weakness."

IN THE COURTS

Philadelphia's Gas Fight Will Go Through Legal Mill.

Philadelphia, May 25.—The gas lease fight has been carried into the courts and in consequence the two directors appointed by Mayor Weaver are out of office and the directors who were dismissed have again taken up the duties of their positions. Mayor Weaver, accompanied by former Judge James Gay Gordon, went to New York for consultation with Elihu Root, the mayor's special counsel. What the next move will be cannot be fore-shadowed. The leaders of the Republican organization announce that their lines remain unbroken; that the gas lease will be passed over the mayor's veto next week, and that the lease will be put into operation.

The first move was the appearance before Judge Robert Ralston in common pleas court No. 5, of attorneys for Peter E. Costello and David J. Smyth, the dismissed directors, who applied for a preliminary injunction against the mayor and A. Lincoln Acker and Sheldon Potter, their successors in office, restraining Messrs. Acker and Sheldon from assuming the duties of their respective offices and restraining the mayor and all other city employees from aiding them in carrying out such intentions. After due consideration Judge Ralston granted a temporary restraining order and fixed next Monday morning as the time for the defendants to show cause why the injunction should not be made permanent. The attorneys for the ousted directors lost no time in the preparation of the papers to be served on the defendants. The mayor and his two directors were informed of the action of the court within a few minutes after the injunction was granted, and they were not surprised when the papers were served on them. The mayor and Mr. Potter readily accepted service, but Mr. Acker at first refused to recognize the papers. He remained at the desk vacated by Mr. Costello and refused to leave the office. The ousted director left the office to begin proceedings to have him obey the court order, but when he returned he found that Mr. Acker had left the office. Mr. Costello thereupon took possession.

As soon as the mayor's advisers had learned of the action of the county court they prepared to take the case to the state supreme court. If the court entertains the appeal the case will be taken from the lower court.

THOUSANDS OF ACRES

All the Promising Coal Land in Clay County is Being Taken Up By the Walsh Interests.

Where They Can Not Purchase Out-right Options Are Being Taken.

Brazil, Ind., May 25.—The story is seemingly well authenticated that President Walsh of the Southern Indiana railway is buying all the promising coal land in this county, along the line of his new Indianapolis railway. In the vicinity of Saline City and east and west of there it is said that his agents are buying coal land wherever it is possible to purchase, and are taking options on coal where the owners refuse to sell the land outright. It is further said that already he has secured several thousand acres in this county.

SHE FOUND RELIEF

Victim of Indianapolis Wife Beater Commits Suicide.

Indianapolis, May 25.—Mrs. Clara Horger of 2039 Sheldon street, was beaten by her husband, David Horger, and because of her shame and anger and the despondency brought on by family troubles, the woman swallowed a quantity of arsenic. She was taken to the city hospital, where she died shortly after, and at a time when the husband was in a cell at the police station.

The couple had been trying to obtain the release of their young son from the juvenile court. The conditions did not seem favorable for the release of the boy, and after a consultation with an attorney the woman went to her home. Later she quarreled with her husband and he gave her a beating. It was said he used a buggy whip. The last blow had not been struck when Mrs. Horger seized the poison which she had placed in a glass and drank it.

Horger did not take her threat seriously. Policemen who were called arrested Horger and sent him to the police station.

Sutherland's Indictment Quashed.

New Albany, Ind., May 25.—Judge Utz in the circuit court has sustained the plea in abatement filed by the defense in the Sutherland wife murder case, and held that the indictment should be quashed. Prosecuting Attorney McIntyre prayed an appeal from this ruling to the supreme court, which was granted. Judge Utz further ordered that the case be resubmitted to the next grand jury. The present term of court ends in three weeks, and as the next term does not convene until October, Sutherland will be compelled to remain in jail all summer unless action is taken by his attorneys to secure his release under bond.

HARD SLEDDING

Is Promised for the Harlan Proposition at Washington.

Winona Lake, Ind., May 25.—The Presbyterian general assembly has voted to look into the proposition advanced by Justice John M. Harlan, and see if there is any merit in the idea of erecting and endowing a great central Presbyterian church at Washington. There was a sharp fight over the reports of the majority and minority reports of the committee to which the question had been referred, and Justice Harlan won it by a vigorous speech. This has been a pet idea of the justice, and in winning the contest he showed that he has power as a politician in the Presbyterian church. It is said, however, that when the proposition is taken up by the Washington Presbytery it will have harder sledding than it had here.

SUCCUMBS TO INJURIES

William Zeigler Is Dead at His Home in Connecticut.

New York, May 25.—William Zeigler, the capitalist and promoter of Arctic explorations, is dead at his country home near Norton, Conn. The funeral will be held Saturday. Mr. Zeigler had been an invalid since a runaway accident in which he was injured last October. He sustained internal hurts, and was so severely shocked that the physicians were unable to do little more than ameliorate his sufferings.

WILLIAM H. ZIEGLER.

She Shot on Sight.

McArthur, O., May 25.—J. M. Specht, a prominent farmer and miller, and member of the Democratic executive committee of Vinton county, was shot by Mrs. Emma Flynn. She claims that she noticed what she supposed to be a tramp looking into her window. She fired through the glass with a revolver and harried herself in the house. Specht's body was found by his family on the lawn in front of the Flynn home, with a bullet hole through his head, over the left eye. Mrs. Specht and Mrs. Flynn are cousins, and the families have been on the best of terms.

Fireworks Plant Lets Go.

Rockland, Mass., May 25.—The entire plant of the National Fireworks company at West Hanover, consisting of ten wooden buildings of one story each, was destroyed by an explosion in the mixing room last evening. Of the ninety employees at the plant only five were injured, one seriously. A similar accident took place at the plant two years ago, but was unattended by any loss of life.

VENEZUELAN SITUATION

Confirmation of Action in Asphalt Case Received.

Washington, May 25.—Acting Secretary Loomis has received a cablegram from Mr. Hutchinson, the American charge at Caracas, in answer to a dispatch sent by him inquiring the decision of the courts there in the asphalt case. The reply simply confirms the press reports that the court, at the instance of the government, had decided the Hamilton concession, under which the New York and Bermudez company originally held title to La Felicidad asphalt lake, to have been forfeited by reason of non-fulfillment of the terms of the concession and had ordered the appointment of experts to appraise damages sustained by the government through the company's failure to meet its obligations. Press advice subsequent to this decision announces the company's appeal to the highest tribunal in Venezuela.

Loose Banking Business.

Canton, O., May 25.—The Canton State bank, with individual deposits of more than \$600,000, has closed its doors. The directors state that the bank will not be able to resume business. The failure was brought about by heavy loans to W. L. Davis, vice president of the bank, by the cashier, Corwin B. Bachtell, without the consent of the other directors of the bank. According to the statement made by counsel for the directors, more than \$400,000 has been given to Davis for which no adequate security has been furnished the bank. Davis has deeded the bank property valued at \$200,000. The city of Canton has \$76,000 on deposit in the bank. The Canton Y. M. C. A. and many school teachers were also depositors in the bank.

Indianapolis, May 25.—With the presentation of a past grand master's jewel to retiring Grand Master George E. Grimes of LaCrosse, the grand lodge of Indiana Masons adjourned. TOGO IS DEFEATED

This is the Rumor That Has Come By Way of Manila.

IT IS UNCONFIRMED

Russian And Japanese Fleets Met South of Formosa With Disaster to the Latter.

Reports Also Have It That Active Land Operations Are in Progress.

Manila, May 25.—There is an unconfirmed rumor here that the Russian and Japanese fleets have met south of Formosa and that the Japanese were defeated.

THE RUSSIAN VIEW

Has It That Fleet Gave Formosa a Wide Berth.

St. Petersburg, May 25.—In naval circles it is now generally assumed that Vice Admiral Rojestvensky's squadrons are in the Pacific, steaming northward and giving the Pescadores, Formosa and the Luchu Islands a wide berth in order to minimize the danger of a concentrated torpedo attack under cover of these islands and to force Vice Admiral Togo, should he elect to accept battle, to meet them in the open. All idea that the Russian admiral will attempt to force a passage of the Korean straits has been abandoned. Both the Pousou strait between the islands of Hokkaido and Sakhalin and the Tsugur straits between the islands of Hokkaido and Hondo were reconnoitered by the cruisers and destroyers at Vladivostok, and the results communicated to Admiral Rojestvensky before he left the coast of French Indo-China.

Situation at the Front.

St. Petersburg, May 25.—The news from the front continues to point to the proximity of fighting on a large scale. Lieutenant General Linevitch sent Lieutenant General Rennenkampf's Cossacks on a daring expedition around Field Marshal Oyama's left. Rennenkampf succeeded in penetrating to the rear of the Japanese, but paid dearly, his Cossacks being badly cut up. Many believe that Linevitch is trying to take the offensive out of Oyama's hands. The latter has made all preparations against the possible interruption of his communications, and the cessation of the transportation service from Jap ports. All reinforcements available and immense quantities of provisions and munitions of war have been landed at Yinkow and Dalny since Rojestvensky appeared in the straits of Malacca.

Preliminary Skirmishes.

Chan Chavazze, Manchuria, May 25.—The Japanese commenced an advance near Sahedze. At the same time the Russians advanced and seized the villages of Shachzou and Syaosichzhou in the center, the Japanese retreating to the further banks of the Kooche and Gorth rivers. There has been no serious fighting yet. The Russians are making daily reconnaissances.

More Bomb Victims.

Baku, Caucasasia, May 25.—The governor of Baku, Prince Nakachidza, was assassinated by a bomb which was thrown at his carriage. A lieutenant who was accompanying the governor, and a bystander were also killed by the explosion, and the coachman is believed to have been fatally injured.

Curious Chinese Prejudice.

In the course of business certain London banks have occasion to send out large sums in gold coin to China. No sovereigns, however, will be accepted which have St. George and the dragon on the reverse side. The dragon on plays a leading part in religious matters in China, and its figure on the coin is abhorrent to the Celestial mind. The London consignees have therefore to pick out the older coins, having a shield on the reverse side, for transmission to the east.
